GRAYLING, MICHIGAN, OCTOBER 17, 1929

OSCAR P. SCHUMANN, Editor and Proprietor

NUMBER 42

## This Week

by Arthur Brisbane

MacDonald's Work  
Lesson for Farmers  
Two Fine Girls  
Mr. Mellon Stays

Ramsey MacDonald's work in America is well known. The United States and Britain have solemnly pledged themselves against war as between the two countries, and to the promotion of peace by all proper means everywhere.

What the future will bring forth, what the British government following the present labor government, or what American public opinion may desire in the future, no one can say. But at least war has been classed as barbarous. The two most powerful nations in the world have declared against it, and that is progress.

It took human beings thousands of centuries to abandon cannibalism. One, undoubtedly, they resolved to eat men no longer. And over and over the resolution was broken, when hunger came and the edible man was easily caught.

But cannibalism has disappeared.

And war will disappear. Nevertheless, in days when the more civilized men were giving up cannibalism, they kept themselves ready to repel those that might come to eat them.

The United States and Great Britain, denouncing and abandoning war as between Britain and America, should keep ready and able to repel others that might seek to enforce war upon them.

Farmers, crying for "relief," may learn from New York's striking truck drivers that real relief can be found in organization.

The drivers haul farmers' produce and wanted an increase in pay representing as much as the average farmer earns. It was not difficult. The agreement was made that any firm produce hauled into New York must be unloaded from the farm truck and loaded into a truck operated by a member of the Market Truckmen's association before it could be delivered to a commission house.

Who pays for that reloading, for the second truck and the services of another truckman, all unnecessary?

The farmer pays, of course.

There are some serious young women left in the world, thank the Lord. Therefore future generations may hope for more Lincolns and Edisons. Miss Isabel MacDonald, daughter of the Labor Prime Minister, spends her time in New York investigating children's courts, as she does in England. She thinks if we gave children good homes, sanitary conveniences and generally good conditions, their morals would take care of themselves.

That's one fine young woman. Another is the daughter of Mr. Morrow, ambassador to Mexico, and younger sister of Mrs. Lindbergh.

When she reaches Mexico City, Miss Morrow will teach in a Mexican public school.

The fact that her father has millions does not concentrate her attention upon herself, or diminish her interest in the welfare of children.

French reorganization of army plans suggests that cavalry now greatly reduced, will disappear from the French army in a few years.

The French know that horses have no possible chance against airplanes above and "tanks" rolling over the ground.

As well send rabbits to meet an on-rushing express train.

President Hoover's announcement that Secretary Mellon has promised to remain in office until 1933 is good news. The public appreciates the willingness of Mr. Mellon, one of the two or three richest men in the world, to neglect his own business for the public business.

It requires not much intelligence to realize to what extent Mr. Mellon's work has contributed to national prosperity. Himself a heavy taxpayer, directly or through corporation ownership, Mr. Mellon has paid off already many billions of the national debt. He continues the "pay as you go" policy, not shoudering war debts on future generations that may be less able to pay than today's prosperous generation.

Senator Sheppard of Texas, as dry as the deepest spot in Death Valley, suggests amending the Volstead act to make purchasers of liquor as guilty and criminal as bootlegging sellers. Such an amendment, of course, would strengthen prohibition enormously. Bootlegging prosperity would refuse to buy, tearing hell and blackmail after buying.

But Senator Sheppard's amendment probably will not pass; many legislators are themselves bootlegging custom ers and don't believe in taking prohibition too seriously.

Our friends across the water were cheerful, with the British pound sterling going above par.

It looks a good deal for England not to compete with Uncle Sam's pocketbook in shipbuilding.

(Oct. 1929, by E. J. Lawrence, Syndicate, Inc.)

## METZELAAR, FISH CULTURIST, DROWNS

Lansing, Oct. 16.—The death of Dr. Jan Metzelaar has suddenly removed from the field one of the most valuable fish experts this state has ever known and although he had been actively connected with the Department of Conservation but six years, his investigations and experiments with fish during that time have proved of incalculable value to the state in the past and will be still more highly appreciated in the future.

This was the tribute paid by Fred A. Westerman, head of the Fish Division of the Department of Conservation to the man who lost his life by drowning in Grand Lake while in the active performance of his duties, a week ago.

Dr. Metzelaar joined the Department of Conservation in 1923, coming from Holland where he had been head of that nation's fisheries. Besides being active in Departmental fish affairs he was also Custodian of Fishes in the University of Michigan Museum, and made his home at Ann Arbor.

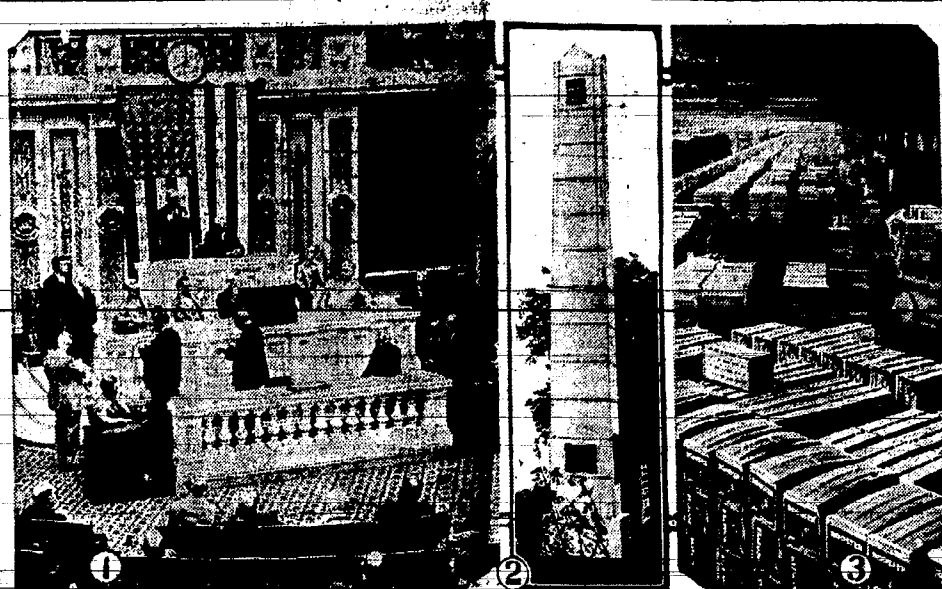

His first specialized work for the Department was in cooperation with Carl L. Hubbs of Ann Arbor, in a survey of the Audubon River. Then Dr. Metzelaar took up a task that had been practically abandoned for 30 years, a survey of Michigan's streams and lakes. Dr. Metzelaar organized this work and carried it on actively for the six years he was employed by the state.

Study of food habits of Michigan fish by Dr. Metzelaar resulted in two bulletins that are considered highly authoritative. Dr. Metzelaar had also just completed a detailed report of smelt in Crystal Lake following an intensive investigation.

One of the studies of Dr. Metzelaar best known to the public, was the trout tagging operations that he began in 1923. Dr. Metzelaar succeeded in tagging several thousand brown, brook, and rainbow trout and important results are just now being compiled.

Surveys of several of Michigan's most important inland lakes to determine their fish content and other data relative to fish were carried on by Dr. Metzelaar. Houghton and Gogebic lakes were investigated and Dr. Metzelaar was at Grand Lake in Presque Isle County, starting such a survey there when he was drowned.

The small boat from which he was leaving was overturned in a heavy sea. G. McCrimmon, who was with Dr. Metzelaar succeeded in holding the boat for four hours until help arrived. Dr. Metzelaar although a reputed good swimmer, was carried down by the rough water.

1—Prime Minister MacDonald of Great Britain addressing the American house of representatives. 2—Monument to the Ohio river, erected in Eden park, Cincinnati, to be dedicated by President Hoover on his trip to the Middle West. 3—New York docks jammed with rotting fruit and vegetables during the strike of the teamsters' and chauffeurs' union which shut off the city's supply of fresh food.

## LAD DIES FROM ACCIDENTAL SHOT

Arden Zettle, 1 year old son of Supt. and Mrs. Edward Zettle of Higgins Lake nursery lost his life from the accidental discharge of a 22 calibre rifle. The accident occurred last Saturday at his home and he passed away at Mercy Hospital, Grayling, Sunday forenoon.

He was about to hang up a 22 calibre rifle when it discharged. The bullet entered his body near the heart and came out from his right leg.

## NELS MICHELSON ATTENDS UNIVERSITY AFLOAT

Nels Michelson, youngest son of Mr. and Mrs. F. L. Michelson of Detroit, sailed Sept. 28th from New York for a four months tour of Europe, which constitutes the first semester of the University afloat. They will spend Christmas in Rome and start on the second semester from Naples, aboard the steamship Letitia, and complete the trip around the world, visiting many countries and all the points of interest enroute, arriving in New York April 17th, 1930.

## CARD OF THANKS

The family of the late Mrs. Nettie Sherman acknowledge with grateful appreciation the kind expressions of sympathy of their Grayling friends.

## THE REPORT CARD

(By Grayling Public Schools)

### Freshmen Entertain

The freshmen class followed the example of the two upper classes by giving a party in the school gym on last Friday evening. Each member of the class had the privilege of inviting a guest, and these were almost sixty present.

Plans had been made to have the party at School Section lake, but due to the uncertain weather conditions it was held at school beginning at 4:30 and lasting until 8:30. During the evening games were enjoyed by all those not needed in the kitchen. Mr. Hill leading most of them. Basketball was the main attraction, both boys and girls participating. About 6:00 o'clock supper was served in the gym. Afterward Mr. LaBarge took a flashlight picture of the group for the school yearbook that is being planned. Miss Hunter, Freshman class advisor, Miss Gessy, Mr. Hill, and Mr. LaBarge were the chaperons of the evening.

### Scouts Organize Patrols

At the regular meeting of the White Pine Girl Scout troop Wednesday afternoon, the members were divided into four patrols of eight members each with a leader for each patrol. The following are the patrols and their leaders:

1. The Junior and Senior members, as one patrol, selected The Elders, as their name with Mary Mahneke as leader.
2. The Silver Birch, composed of Freshmen, chose Viola Kennedy as its leader.
3. The eighth graders selected the Golden Oak as their patrol name, and Maxine Adams was chosen leader.
4. Ariene Adams was elected leader of the Evergreen, another group of Freshmen.

Miss Hunter has consented to help Miss Lewis, Captain in the Scout work this year. The troop expects to accomplish a great deal, in order to raise funds to purchase uniforms.

### Personals

Helen Pond left Saturday for Detroit to be gone a week. James Post and Margaret Fehr have been furnishing amusement for Miss Estee's Civics class for the last few days. James insists that Margaret face the front of the room in order not to disturb him in his work. Margaret in turn argues that James should try sitting in the front in her place, and keeping still for a change. Those two don't know their possibilities as debaters, they are veterans in the game, of course.

A number of the students spent the week end at the Sunrise Club down the river. They were Margaret Fehr, Dorothy Hoessl, Mary Esther Schumann, Clara Bugby, and Margaret Warren. All had a pleasant time.

Mr. Cushman was on the sick list for a few days but has recovered and is back at school again.

Miss Hermann's grade, the fourth, obtained the record of having a hundred per cent attendance last week.

Jokes  
Teacher—What is a grasshopper?  
Pupil—Our dull lawn mower.

Miss Estee—Be diligent and steadfast, and you will succeed. Take the case of George Washington. Do you remember my telling you of the great difficulty he had to contend with?

Bones—Yes, Ma'am, he couldn't tell a lie.

Mr. LaBarge—What did Juliet say when she met Romeo in the balcony?  
Gordon Pond—Couldn't you find seats in the orchestra?

Miss Lewis—What is the most outstanding contribution that chemistry has given to the world?

Clara Bugby—Blondes.

James Post and Karl Sherman were out hunting in the woods and one of

## BETTER Sires TRAIN VERY SUCCESSFUL

The Dairy Sires Train completed a very successful two weeks operation at Twining Friday, October 4. During the two weeks that the Train was out it received a total attendance of 5,000 farmers and placed 82 purebred sires in Northeastern Michigan. Another feature of the Train was the removal of 35 scrub bulls to the Detroit Stock Yards and slaughtering houses.

Alpena County established the record for purebred sires removed from the Train, with a total of 13. Cheboygan County ranked second with ten removed. In attendance Cheboygan County led the list with 825 farmers present at the Saturday afternoon program. Harrisville was second with 400.

According to Prof. E. L. Anthony, Dairy Dept. M.S.C., who spent several days with the Train, the operation of this Train was highly successful. He remarked that the placing of 82 purebred sires in Northeastern Michigan was equivalent to the placing of 60 carloads or approximately 1,000 head of cows and heifers at the end of a three year period. He conservatively estimated that the placing of these purebred sires would add \$1,000,000 to the income of the farmers of Northeastern Michigan at the end of five years.

The cooperating agencies feel that the Train has started the dairy farmers of Northeastern Michigan thinking about purebred blood in a herd and that the importation of purebred animals within the next three or four years will be materially increased. The farmer who does not follow this program will soon be left far behind in the profitable production of dairy products.

## ST. JOHN'S PAPER ACHIEVES RECORD

The Republican News, a weekly newspaper, published at St. Johns, has just come off the press with one of the finest weekly newspaper editions ever published in the state. It consists of 60 pages and contains a ten page rotogravure section, an enterprise entirely new in the weekly field. Editorially, typographically and pictorially it is an outstanding achievement. Historical accounts of each township in Clinton County are not the least of its attractions. The publishers have ample justification to felicitate themselves.

## COMINS GAS STATION DISPLAYS FRENCH TANK

A French war tank on exhibition at Pfaff's Service Station, Comins, is attracting the attention of persons who travel M-33. The war tank was given to Mr. Pfaff. It possesses all of its vital organs and is in condition for service.

## WAYNE SUPERVISORS SUBSCRIBE TO E.M.T.

Wayne County Board of Supervisors subscribed the maximum amount permitted under the statute to the East Michigan Tourist association at its September meeting. This is the second subscription made by Wayne county supervisors to E.M.T. and the affiliation is especially gratifying to the officers and members of the association.

They picked up a chestnut burr. "Jim" Karl called, "come here! I've found a porcupine egg!"

Don—Miss Lewis, the barometer has fallen!

Miss Lewis—Very much?

Art May—No, I'm not looking for the penny I lost. My brother found it.

Senior—Well, what are you looking for now?

Art May—My brother.

## PARTRIDGE SEASON OPEN FOR HUNTING

Lansing, Oct. 15.—The upland game bird season is now open. The season for partridge and prairie chickens opened for the lower peninsula Wednesday, October 16. The pheasant season will begin October 25.

Experienced hunters have no difficulty in identifying prairie chickens according to the game division of the Department of Conservation, but careless or inexperienced hunters are cautioned against mistaking hen pheasants for prairie chickens. The prairie chicken is much darker underneath and has a very short squared-off tail, while hen pheasants have long pointed tails. The ruffed grouse or "partridge" is relatively uncommon in pheasant areas and it can be readily identified by its fan-shaped tail.

Two other upland game birds which are found in Michigan are the bobwhite quail and the European or Hungarian partridge. Both of these are protected by law at all times.

Nearly everyone is familiar with the bobwhite or native quail, which is fairly common in the southern half of the state. It is small and weighs scarcely half a pound. The quail is only half the size of the Hungarian partridge which is now found in several parts of Michigan.

The Hungarian partridge is also locally known as the "gray partridge" and is sometimes called the "red tail" because of the rich chestnut color of its tail feathers which are very conspicuous in flight. The Hungarian partridge is much smaller than our native partridge and is not likely to be confused with it.

Releases of these birds have been made in Branch, Ogemaw, Oakland and Ingham counties, but the largest number are found in Lenawee and Monroe counties into which they have spread during the past six or seven years from Ohio plantings.

It is believed that with further protection these new birds will thrive and perhaps spread to other parts of Michigan and become an important game species.

## PARDON COMMISSIONER VISITS GRAYLING

Arthur D. Wood of Lansing, commissioner of pardons and paroles, was a caller at the Avalanche office Tuesday morning. He dropped in to say hello to Ed Mayotte who at one time worked in his office at Munising as a typewriter operator.

Mr. Wood has made a great record as commissioner, although he is too modest to mention it personally; however, the people of the State of Michigan understand it well.

Conditions in the prisons of the state have been improved by carrying out some of his suggestions. The idea that the prisons are so crowded that it is necessary to pardon a large number annually in order to care for others who are sentenced to imprisonment, thus creating a psychological condition that is taken advantage of by the criminal class, has been proven a fallacy.

Mr. Wood says that only 15% of the criminals of the state are in prison. Only in outstanding cases should pardons and paroles be granted. The public has the right to be protected from the criminal class and their presence should be removed from society. He further says that, if necessary, barracks will be built in order to care for prisoners, rather than grant questionable paroles and pardons.

The splendid record he has made during his tenure of office has put him in line with the people and right now there is a strong sentiment for him for governor. He would make a good one, we are sure.

## LARGE CROWDS ATTENDING ST. MARY'S MISSION

Large crowds have been in attendance every day at the various services of the Mission that is being held at St. Mary's church all this week. In fact each day the number is increasing. Rev. Fr. John Walsh of the Dominican Fathers who is conducting the mission is a very forceful speaker and his sermons at each service are most inspiring.

The Mission began last Sunday morning with high mass and will close next Sunday. Two masses are held each morning, one at 8:00 and the second at 7:30 o'clock with instructions by Fr. Walsh at each mass. In the afternoon at 4:15 o'clock the children meet at the church for their part of the Mission service and in the evening at 7:15 o'clock, there is congregational singing, the rosary, benediction and the regular sermon by the Missionary father.

Much interest too is manifest in the special class of instruction that is held at 6:45 o'clock each evening at St. Mary's rectory. This class is for those not thoroughly instructed in their religion, those who desire to become Catholics or are interested in the Catholic religion.

Many people from Roscommon and the country are making it a point to attend at least one service a day.

John Wilfred Greenwood, Minister

Sunday, October 20, 1929

10:30 a. m. "The God of the broken-hearted."

7:30 p. m. "The possibilities of a new day." "Thomas Edison."

(The Pastor has been called away for a few days owing to the death of one of his closest friends.)

## My Friend

That last Saturday night is forever etched on my memory. I see him sitting there with Sunday School lesson in hand, unable to master the lesson. Somehow his mind would not function as before. Once again, he tried to read it through in preparation for the sacred task of teaching others. And then, the summons came. The Other Teacher had come. Not a partial explanation to be given. Not a human inability to grasp the truth. But the ability to know as he was known; to see face to face.

So my friend is now a student of the Great Teacher. What lessons to be learned! What truth to be revealed! How finite our knowledge, and how limited our capacities!

We wonder when the Great Teacher will call us to His class, even as He called this close companion of other days. Who knows how near or how far we are from this moment in our lives? No matter when, may we go forth day by day, strong to battle, forever hearing a secret music in our souls.

## COMING

Dr. A. S. Allard, optometrist of 228 Shearer Bldg., Bay City, will again be in Grayling at Shoppengons Inn, Wednesday, Oct. 30th.

Children's eyes need frequent attention. Bring them in and make sure they are getting an equal chance in school.

Eyes examined and glasses fitted that give results. 20 years of making glasses for folks of northern Michigan.

Remember the date, Grayling, at Shoppengons Inn, Wednesday, Oct. 30th.

DR. A. S. ALLARD, Optometrist.

THURSDAY, OCTOBER 17, 1929

#### AND THERE ARE OTHERS

Supervisor Albert Lewis of Fred-eric says his township has the AuSable and the Big Manistee rivers. Supervisor O. B. Scott of South Branch township tells of the wonders of the South Branch river. Rufus Edmonds, supervisor of Maple Forest township, says his township has the upper waters of the wonderful little Bear Branch river and also Bear Lake. Supervisor George Annis of Beaver Creek township says his township has miles of shore line on Higgins Lake, a body of water that cannot be excelled for beauty anywhere. Also Beaver Creek, a fine little trout stream. Supervisor Kellogg of Lovells township, in his letter recently published, gave a good account of the river attractions in his township and of Grayling where Frank Barnett is the supervisor. Each and every one of these men is justified in the pride he has for the township which he represents.

And thus it is revealed that Grayling and Lovells townships aren't the only ones that have big things to offer in the way of resort sites for those who wish to establish homes in delightful places where their families and friends may comfortably and pleasantly spend their summer vacations.

It's a good thing to publish communications such as the letter by Supervisor J. E. Kellogg in which he describes the advantages of his township and also of Grayling, which possess the wealth and beauty of the North Branch and the Main stream of the AuSable river.

In fairness we wish to mention that this same grand AuSable river passes south thru Frederic township and also the Big Manistee flows thru Frederic and Grayling. And in South Branch township there is the magnificent South Branch river. There is none other like it anywhere. This stream is a wonder and a steady boasts of some of the finest summer homes that may be found in Michigan. In a few more months the fine new home of Cliff Durant will be completed at a cost of about \$200,000.00. There is still available along this stream many sites that sooner or later are going to become the private property of some club or individual. This is a great hunting country as well.

Maple Forest township has the upper waters of the East Branch river. This stream is not as large as the others we have mentioned but never the less a very attractive stream where anyone might well be proud to reside. And Bear Lake too is a fine body of water and affords good fishing. Also a good hunting region.

Beaver Creek township may well boast of its miles of shore line on Higgins Lake. Which, in or opinion, is Michigan's finest and best family lake, and affords a great bathing beach. And Beaver Creek too is a fine little trout stream and affords some excellent spots for summer homes.

Crawford county townships are rich in opportunity for those who would like to find places for summer homes. No matter where one may go they will find in every part of the county places that are above the average places for settlement.

This past season has found three new cottages on the Big Manistee river. Further development of summer homes along this famous stream is inevitable. Not many years hence we will find this stream and many of the country well dotted with homes. Property on our lakes and streams is becoming more and more valuable and more scarce each year. People are buying property along these water fronts for the protection of themselves and their posterity.

## Local Happenings

Mrs. A. J. Nelson is spending a few days in Detroit.

Miss Fern Armstrong left Wednesday for a few days visit in Detroit.

Bargains in children's hose at Redson & Cooley's. Regular 50c hose 35c.

Miss Norma Burdette entertained her mother of Manistique over the week end.

J. Fred Alexander returned home Monday after several days spent in Grand Rapids.

Don't forget the baked goods booth at the L. N. L. fair at Oddfellow hall, Oct. 26.

Mrs. Carl H. Nelson and son Joseph Bruce were dismissed from Mercy Hospital Wednesday.

Mr. and Mrs. Fred R. Welsh returned last night from a couple of days visit in Grand Rapids.

Mrs. Martha Pearsall of Atlanta was in the city on business and pleasure the first of the week.

Mrs. Mary Gieble who has been spending the summer with her sister Mrs. Hans R. Nelson, returned to her home in Milwaukee Wednesday afternoon.

Don't forget you are invited to attend the Halloween masquerade party to be given by the Seniors Friday evening, October 25th at the school gymnasium. Bill \$1.00 per couple.

Carl David Larson, age 16 months, son of Mr. and Mrs. Carl W. Larson passed away Thursday afternoon at Mercy Hospital, after a few days illness. Funeral services were held from the home Saturday afternoon.

Mr. and Mrs. George Barber and little son Harold accompanied by the former's sister and husband, Mr. and Mrs. Dean Hall and children motored to Greenville, Grand Rapids, St. Louis and Atlanta and visited relatives.

Miss Ellen King, daughter of Mr. and Mrs. Chris R. King was united in marriage to Mr. Oscar Ziederman of Roscommon, on Saturday, October 12th. The young couple have many friends who extend best wishes and congratulations.

Tim Webster, 97 years old passed away Friday at the county infirmary. The cause of death was acute dilatation of the heart. The whereabouts of any relatives of the deceased is unknown. The funeral was held Saturday afternoon.

There will be a dance next Saturday night, Oct. 19, at Beaver Creek town hall. The following Saturday night, Oct. 26, there will be a masquerade dance at the same place. Prizes will be given to the best dressed lady and gent.

Mrs. Ernest Bissnette entertained a club Thursday. There were a large number of ladies present. The afternoon was spent in visiting and games. Mrs. Ngai McDaniels winning both prizes. The club will meet with Mrs. Wilbur Simpson next Thursday.

Two Missionaries for central Michigan—S. C. Bevan and Brother McGuire of the reorganized church of L. D. 3, will be in Grayling beginning October 20th to open a series of meetings, having charge of the all-day meeting on that date at the Legion hall.

Mrs. Emil Niederer and daughter Miss Helen Pond, Mrs. Alfred Hanson, and Mrs. Rasmus Jorgenson left for Detroit Saturday night where they are guests of the latter's daughter, Mrs. Ralph Warner. Mrs. Jorgenson will remain for a couple of weeks, while the others will return Saturday.

There was little response to the call for a mass meeting to be held in Gaylord recently for the consideration of boulevard lights. As usual, the large bulk of the population is willing to leave the matter to a few. Then they will say the town is run by a clique. Here's hoping the Gaylord clique keeps on clicking. That's the only way they may hope to keep on progressing.

The Our Gang Sewing club met last Thursday afternoon at the home of Mrs. Albert Knibbs. Plans were made to finish the quilt which the ladies will sell at the Ladies National League fair on October 26th. Election of officers of the sewing club was held with the following results: Mrs. Emma Knibbs, president; Mrs. L. V. Junkow, secretary; Mrs. Pearl Mathewson, treasurer; Mrs. Florence Wakeley, press correspondent. The club will meet next Thursday afternoon with Mrs. Paul Feidhauser down the river.

A delightful week end party was given by Miss Margaret Fehr at Sunrise Club on the AuSable, where she entertained two of her teachers and five schoolmates. Those present were: Miss Estee, Miss Lewis, Margaret Warren, Mary Esther Schumann, Dorothy Hoell, and Clara Bugby.

Among the thrills enjoyed were the porcupine hunt, swinging bridge, hill climbing, mice found in teachers' bed and snake in Mary Esther's bed. They were accompanied by Mr. and Mrs. Chas. Fehr.

The County Board of Supervisors is in session this week, beginning Monday. All members are in attendance—Frank Barnett, Grayling; Albert Lewis, Frederic; George Annis, Beaver Creek; J. E. Kellogg, Lovells; O. B. Scott, South Branch; and Rufus Edmonds, Maple Forest. A visit at the court house found the board digging into the work in real earnest. This is the regular annual session when many matters come up before the board for consideration and the session usually lasts for a week or more.

Some Grayling men are so stubborn and contrary that you can only convince them they are wrong by agreeing with them.

Tams, big fuzzy ones, \$1.00 to \$2.00 at the Gift Shop. Redson & Cooley.

Harbert Gohuro and Roy McEvers left Sunday morning for Escanaba to attend the annual state convention of the Oddfellow lodge. They are expected to return tomorrow.

The annual meeting of the Hospital Aid was held at the home of Mrs. Carl Peterson Thursday afternoon and the following officers were elected: President, Mrs. Marius Hanson; vice pres., Mrs. C. J. McNamara; Sec. and Treas., Mrs. Carl Peterson. It was voted to eliminate the charity ball for this year and raise money by another method this year. For years the Aid has sponsored a beautiful party which has been held during the holiday season.

### One-Track Thoughts

Now that the world series is over the baseball fans can get back to work.

Love is something that will make a Grayling girl leave a good home just to be near an animal that chews tobacco and eats onions.

President Hoover, being polite, might return Mr. MacDonald's visit next year.

The average college boy doesn't care so much about making the grades as he does about having a car that will make them.

The Grayling woman who is married to a grouch ought to be wearing a hero medal instead of a wedding ring.

Our own advice: Let the bank pay you interest; they can afford it.

We really can't understand why people gamble with slot machines when there are canteloupes on the market.

Every girl lands a Whale when she gets married, but it doesn't take long for it to turn into a Minnow.

Some newspapers are so large that it takes a bloodhound to scent the news.

There are said to be more Mormons in London than in Salt Lake City. But maybe their wives don't know it.

### EDUCATION AND DISCIPLINE

By THOMAS ARKLE CLARK  
Dean of Men, University of Illinois.

Mrs. Collins came in to see me a short time ago concerning her son who is shortly to finish a course in a high-priced preparatory school. She had the child by the hand when she came in. He was an indifferent looking youth with little enthusiasm apparently for the strenuous activities of life. He let his mother do the talking, and she talked very easily.

"I want George to go to college," she assured me, "and I am sure he will do well if he can find something not too hard to do. What would you suggest?"

I hadn't anything in mind, and I told her so. She was not wanting her son to have an education; she was looking for a pleasant, easy experience masquerading under the guise of training. She had never heard the statement of a very wise man, or if she had heard she had forgotten, that "an education that is not a discipline can scarcely be considered a preparation for life." It is only when we subject ourselves to the discipline of the difficult task and do it well whether or not we like it or find it pleasant that we really progress far in education.

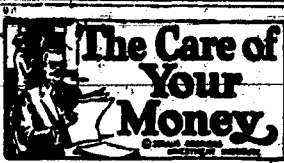

I said as much as this to Mrs. Collins, but she did not understand me, and my statements bored her son. Ruskin's early life, he tells us, was a very guarded one. He was given very little responsibility; he was kept from error and harm and not allowed to make his own decisions or to learn through failure the necessity of self-discipline. He acknowledged when he was an old man that this defect in his early education qualified him for the discipline of life and became the cause to him of failure and misfortune. Any education which does not involve a rigid discipline of one's self is pretty much a failure.

Much of the trend of education today, in and out of schools and colleges, is towards making the path of youth smoother and easier. We are doing everything we can to make education pleasant and attractive to lower the grade and remove the barriers to progress, and to make the discipline less rigid. The effect is not altogether good.

Wood and I were talking over old times a few evenings ago. We had had the same difficult course in college under the same instructor—a hopelessly inefficient instructor, he was, too. We had put a pretty load on our shoulders at that time regarding the little help he gave us and the rigid results he required, but all to no effect. It was because the course, as fortunately we did, it was because we set out to discipline our own minds.

"I guess it was a good thing for me after all," Wood concluded at the end of our discussion. "It prepared us for the more difficult things of life which come to every man when he gets out into the world, no matter what his preparation he falls into."

It is really discipline which counts most in education and in life. (© 1929, Western Newspaper Union.)

### THE CARE OF YOUR MONEY

#### SHELTER LOANS ARE FUNDAMENTAL

The act of seeking shelter is one of mankind's strongest instincts. Give a young man a job, introduce him to a girl, and before long he'll be seeking shelter. Before long he'll be talking to contractors and bankers or real estate agents. After a while he may become woefully in debt, but he'll fight for his home and his friends before anything else. He may owe on his automobile, his furniture, and his radio—but before any of these debts are paid, he will secure the four walls around him.

Fear of the loss of the old homestead through foreclosure of the mortgage has been the theme of many a touching drama and poem. Dramatically it has shown us that the dwelling place is cherished and protected until the very last.

This is an important investment fact. The fundamental shelter instinct makes the securities that back shelter enterprises, such as homes, apartment houses, and hotels—safe and sound investments.

Interest and principal payments of such securities are made more certain because the average man pays his rent before anything else. As long as rentals are continued to be paid, the income of an apartment building or hotel is assured. And it is from this steady income that the mortgage or building owner pays the interest and gradually the principal on the money he has borrowed to finance his project.

The shelter loan is ancient in its origin. Two thousand years B. C. the Babylonians mortgaged their homes to secure payment of debts. Its origin, however, has undergone a tremendous growth and change.

Before huge cities with their skyscrapers developed, shelter projects of a comparatively simple nature, were financed by individuals who alone took mortgages on the building.

The advent of large, modern office buildings, palatial hotel and apartment houses, meant that no individual alone could finance such huge projects.

And so the first mortgage real estate bond was created to enable the builder, on the one hand, to erect the structures demanded by progressive communities under the modern economic and industrial system; and the investor on the other, to invest his money safely in \$1,000 or more in investment-grade mortgage securities, safeguarded by the fundamental shelter instinct.

If some folks had been present to give Providence instructions as to the making of the world you wouldn't have a foot of ground to stand on.

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES  
OF THE AVANCEE OF 23 YEARS AGO.

Thursday, October 18, 1906

A. J. Love of St. Louis is in town shaking hands with old friends.

H. Moon of Beaver Creek has erected a 30x40 foot barn to cover his crops.

Ex-Supervisor W. Stewart of Beaver Creek has been on the sick list but is improving.

Mrs. Chas. Harrington of Au Gres has been the guest of Mrs. John Everett the past week.

F. O. Pock and his daughter, Gladys, have been visiting in Isabella County for the past week.

A knot, flying from a saw, made sad inroads on the beauty of Ura Shirts one day last week, by cutting a fearful gash on his nose and cheek.

Henry Trumley made a flying visit to Johnsburg last Saturday. He reports the Grayling contingent of that village all well and prospering.

Mr. and Mrs. Otto Hanna of Traverse City have spent a month in Beaver Creek with her family, L. Moon, and other friends, returning last week.

Because of the inability to secure more big lumber and lath mill of the Marais Lumber Co. at Grand Marais has suspended operations.

The Osego county fair at Gaylord last week-end reported the most successful event of the kind ever held in that county.

Let us all go down to Geo. W. Britt's in Beaver Creek. He had ten barrels of fine apples come up from Tekonsha last week and will have two barrels of juice soon.

Married, at the home of C. Ackerman, Thursday, Oct. 11, Miss Cora Gyster and Clarence Van Amburg.

Justice John L. Norder is officiating All of Grayling.

Henry Wille of Cheney was bitten by a dog last week and has a decided, sore ankle. There is no suspicion of rabies and he will soon forget it.

Charles Marvin arrived from the "wild and woolly west," the first of the week, looking as though it agreed with him. He will start back Monday, taking with him one of Grayling's fair daughters.

Mrs. C. S. Barber returned Monday from a three weeks visit in Owosso. Left mother Wallace and Len doing fine.

Rasmus Madsen has a neat new cottage just finished on his addition in the village on the south side of the river.

The Frank Tucker Theatre Co. will be at the opera house all next week. Popular prices, 15, 25, and 35 cents. Reserved seats at Fournier's.

Mrs. Charles Ingerson started yesterday for Tacoma, Washington.

where she will probably make her home.

N. Michelson has a novel, and not altogether pleasant addition to his stock farm in a drove of six bears.

They killed five of his sheep one night last week, and he went after them with traps, catching one beauty the first night, which was served to his customers from the market here.

The beast, with a heavy log fastened to the trap broke through two wire fences and got nearly a mile into the swamp where he was killed the next day.

At the last regular meeting of the Grayling Chapter, Order of Eastern Star, the following officers were chosen for the ensuing year:

Worthy Matron—Mrs. Mary Leece. Associate Matron—Mrs. Emma Keeler.

Secretary—Miss Josephine Russell. Treasurer—Mrs. Emma Hadley.

Conductress—Mrs. Amanda Smith. Assoc. Conductress—Mrs. Elizabeth Stilwell.

Adjuvants—Mrs. Matilda Sparkes. Ruth—Mrs. Libbie Bates.

Easter—Miss Angie Leece. Martha—Miss Gustaf Olson.

Electa—Miss Myrtle Smith. Chaplain—Mrs. Elizabeth Trumley.

Wardens—Mrs. Salome Simpson. Sentinel—John Leece.

Marshall—Mrs. Helen Havens. Organist—Miss Gladys Hadley.

Married, at the home of Mr. and Mrs. Geo. Tyler of this village, Thursday evening, Oct. 11, Miss Alice Cusack and Mr. Charles Peterson.

Rev. Father Riess officiating.

The potato market will open in Gaylord at about 25 or 30 cents per bushel. Freight rates have advanced 2 cents a hundred between Gaylord and Bay City and this will have a tendency to cut the price some.

Seven cents was the price last year, but the rate is now fixed at 9 cents a hundred pounds. Herald.

School Notes

Miss Mary Forbush of Maple Forest entered school Monday morning. She will do work in the ninth grade.

Miss Ohlson wishes to thank the school board for the drawing models that arrived Monday.

The hustling coach, Carl Grawn, is working his coals every night after school. He hopes to make a good showing against their first antagonists. We hope soon to be able to announce a game.

Miss Josephine Russell, a justly popular primary teacher of Grayling, exemplified with a glass of little pupils her excellent method of teaching beginners to read before the Crawford county institute. She has

pupils—enough for two rooms—but they are fortunate in having such a teacher.

Supt. Bradley of Grayling is certainly a past-master in teaching arithmetic. His drills in that subject last week were blue ribbon specimens.

Dr. Palmer, a pioneer of Grayling, and a competent judge, says that Crawford county ladies are the brightest and prettiest extant.

Grayling school rooms are beautifully tinted and decorated with pictures; excellent blackboards and plenty of them are in evidence.

Grayling pupils, 30 in number, attended nearly every session of the teachers institute, were attentive listeners and responded creditably to the quizzes.

THE GRAF'S WORLD TRIP MEANS WHAT?

By Erwin Greer  
(President Grer College of Aviation, Chicago, Ill.)

In her voyage around the world from Lakehurst to Lakehurst, the Graf Zeppelin not only was the first dirigible to accomplish such a journey

but she made the longest "hop" in the history of aeronautics—from Friedrichshafen to Tokyo—and the fastest journey around the world ever accomplished by man. The Mears-Coller journey by airplane, train, automobile, and ocean-liner, it will be recalled, required 23 days, 15 hours and 21 minutes. There were no mooring masts in Siberia, and it was this stretch, largely uninhabited, that the greatest hazards were anticipated. It was not until the dirigible was being brought out of the Tokyo hangar, however, that a slight mishap occurred—the breaking of two rear gondola supports.

Always in touch with Europe, Asia or America by wireless, the huge German dirigible sailed along, so favored by the winds that much of the time she used only three of her five motors. This seems to confirm the theory that circling the globe from west to east has its advantages. She required little more time in porting than a big steamer. In fact, her fine showing indicates that the day of scheduled aerial transportation is not far distant. One of the things that may come out of the Zeppelin's successful voyage is "round-the-world air-mail in fifteen days."

The fact that two dirigibles larger than the German leviathan are now under construction for our Navy at Akron, Ohio, should serve to intensify the interest of the American people in this type of ship.

Whether the dirigible has commercial possibilities, however, is a question. The gas which an airship uses is enormously expensive. Moreover, a crew of about 400 is needed to berth the ship; huge hangars must be erected and maintained. A ship of this sort may be able to circle the globe, but can it pay dividends? When the novelty has worn off, will there be enough passengers to make such a voyage profitable? The cost of building and operating one of these monster gas-bags is enormous in proportion to its useful load.

STANDARD OIL COMPANY (Indiana) AGAIN SPONSORS CHICAGO SYMPHONY BROADCAST

The Standard Oil Company (Indiana) has made arrangements with Professor Stock to resume the Sunday afternoon broadcasts of the Chicago Symphony Orchestra. The series will start on October 20, from 2 to 3 o'clock, Chicago time and will be given each Sunday afternoon following, for a period of six months over WGN, Chicago; WWJ, Detroit; WHO, Des Moines; WOW, Omaha; WTMJ, Milwaukee; WOC Davenport; WDAF, Kansas City; KSD, St. Louis; KSTP, St. Paul; WEEB, Duluth-Superior.

The Standard Oil Company's continued sponsorship of these concerts is a response to the articulate appreciation of the audience who listened to last season's series. The mounting vigor of the listener's hosannas for Professor Stock's offerings seem to indicate that since the air was first tapped for its sounds, no program has been more cherished than the Sunday afternoon broadcast of the Symphony Orchestra.

Doubtless there are many wealthy benefactors or big corporations who might have sponsored these programs purely for the public weal. But, the Standard Oil Company happens to be the patron, and it is their enterprise and vision that thousands of music lovers will again delight in the expert performance of the Symphony Orchestra.

Professor Stock proceeds with the comforting certainty that fine music has a tremendous allure for great numbers of people. Many of them are debarrred by distance or other obstacles, from attending the Symphony Orchestra's concerts. It is to these thousands that the Standard Oil Company presents the six-month series for all that it may mean to them.

Tribute to the Symphony Orchestra came from the most remote parts of the country. Listeners seemed to take much delight in the inimitable preludes of Professor Stock himself during each concert. There was a likeable intimacy about the whole of it, and even people to whom Symphony had meant music on a remote and classical plane, found themselves caught in the thrall of the Standard Oil hour.

The previous season has served more or less in the nature of an experiment for this year's offerings. Medley pieces from the works of the great classicalists will be given, as well as compositions of contemporary masters. And, as the orchestra has proved before, it can be as gay and light-hearted as an amateur, when it serves a lively measure.

The Standard Oil Company hour with the Symphony Orchestra on Sunday afternoon promises to be one of the most important musical offerings of the season.

RUG SELLERS

They still fall for them in some communities; we mean the oldtime sailor rug seller who represents that he has been able to smuggle in to this country valuable imported rugs that he offers at below cost. The rugs turn out to be cheap imitations, the sailors are victims of another swindle. Despite constant warnings from the progressive newspapers who keep constantly on the alert to discover these fraudulent practices there are always the "wise ones" who fall for the solicitations.

The Care of Your Money

REAL ESTATE BONDS

The most popular form of investment that combines the essentials of safety, security and a fair rate of return is the First Mortgage Real Estate Bond.

Real estate bonds represent one of the most satisfactory forms of investment known, secured as they are by one of mankind's basic necessities—shelter—the land and buildings used by men for their homes and their business operations. The business of supplying shelter for living or commercial purposes is prosperous, growing American cities are least affected by changing general business conditions.

First Mortgage Real Estate bonds, as they are known by the best investment banking houses, constitute a direct first mortgage on income-producing real estate, divided into bonds of standard denominations (\$100, \$500, \$1,000).

Secured by the choicest income-producing land and buildings, well-located in prosperous, rapidly-growing cities of the United States. Properly made they are amply secured, and productive of a reliable and satisfactory income. For these reasons they are coming into wider and wider favor with investors of all classes.

In the general classification of real estate bonds, as in any other, there are decided differences in quality between bonds which on the surface appear to be similar. These differences are fundamental and are due to several factors such as the nature of the property pledged as security, the ability and integrity of the borrowers, the amount of the income from which interest is to be paid, the manner of retiring principal amounts of the bond issue, and the tax status and character of the lending house.

For the great majority of investors who want to accumulate money safely and at a fairly rapid rate, this type of bond comes very near to being ideal. Insurance companies and large investors have always been very large buyers of real estate securities. The individual with small amounts to invest finds in these bonds safety, certain and liberal income, and diversification.

HUNT FOR FORTUNE IN A PICKLE JAR

Texans Think Slayer Hid His \$10,000.

Austin, Texas.—Hunt for \$10,000 reputed to be buried in a pickle jar has begun in various parts of Texas and the northern part of Mexico.

The stake is said to have been buried by Harry J. Leahy, who was electrocuted August 2 as the murderer of Dr. J. A. Ramsey of Matilda.

Ranger Captain Frank Hamer probably is the only man who knows whether there is such a buried treasure, and if so, where it is. A few hours before the execution Leahy sent Hamer, they had a long talk. "It was confidential" is Hamer's only answer to questions about what Leahy told him.

How the belief that Leahy buried \$10,000 originated is as much a mystery as the buried treasure's location.

Widow Pressing Search.

Leahy was a ranchman, at one time wealthy. What became of all the money he received has not been known. Some believe he buried part of it. Mrs. J. A. Ramsey of Matilda, widow of the man Leahy was convicted of killing, is urging the search for the buried pickle jar—not because of the reported \$10,000 but because she believes that there may also have been buried personal jewelry which Doctor Ramsey was wearing when he left his home in May, 1926.

Hamer then was called by a Mexican to come to the aid of a Mexican woman who was said to be seriously ill. His body later was found buried in a shallow grave on a lonely ranch in Live Oak county. His jewelry was gone.

How Suspicion Was Aroused.

Suspicion first attached to Leahy when Mrs. Ramsey offered a reward for her husband, whom she believed to have been kidnapped. Leahy offered to conduct a search but insisted the reward be for his body, dead or alive. A motive was found in anger because Doctor Ramsey had come into possession of Leahy's ranch during a period of ill fortune.

Leahy visited Laredo, on the Mexican border, between the time Doctor Ramsey disappeared and his arrest. This has led to belief that he may have concealed something across the Rio Grande.

Thinner, a noted figure in law enforcement along the border, had long been a friend of Leahy who frequently assisted the officers in the days of pitched battles with cattle raiders and marauders.

Famous Red Families United by Marriage

Washington.—Two direct descendants of Chief Powhatan and the Indian Princess Pocahontas left their homes in Virginia, came to the city of the Great White Father and while here sought out Judge Robert E. Mattingly to marry them. They left immediately after the ceremony for the groom's home in Sweet Hall, Va., where they will reside.

William Custalow, aged twenty-seven, a tall, slender, well built man, with the red skin of the Indian, was the groom, and Elsie Nelson, also a native of the Indian land, was the bride. She is from Indian Neck, Va.

The father of the groom is Chief George E. Custalow, of the Mattaponi, who are living on land granted them by the general assembly in 1858. The Mattaponis are tribal Indians and they neither pay taxes nor vote.

The bride's father, also living, is Chief John Salas, of the Rappahannock tribe of Indian Indians. These Indians pay taxes and are entitled to vote. They live on a reservation of 125 acres in King and Queen county, Virginia. Members of both families are direct descendants of Powhatan and Pocahontas, a cousin declared.

Couship of the two who were married here was conducted over a 16-mile stretch between the two reservations with many visits by the young Indian man into the home of another tribe to win his bride.

This Dog Has Full Paid Gratitude Debt

Chippewa Falls, Wis.—A collie dog named Mink, who was five years ago by Mr. and Mrs. Harry Gale, who had found him dying in the road, for the second time paid off his debt.

Mrs. Gale, working in the field, ran for the house when the dog rushed up, barking frantically and tugging at her skirts. She found the kitchen in flames and rescued her son, Robert, three.

Not long ago Robert crawled out on the highway. A motorist stopped his machine to see the dog tug the baby out of danger.

Woman's Trained Goose

Foils Poultry Robbery

Chippewa Falls, Wis.—Mrs. Jeanette Wensell of Cadell is convinced that a pet goose can be useful as well as entertaining. She has such a pet and has trained it to come to her when she calls it by name. Recently a number of chickens, ducks and geese were stolen from the Wensell flock.

Mrs. Wensell suspected a neighbor, Charles Anderson. Accompanied by the sheriff, she went to the Anderson farm. She called out a name. A goose waddled to Mrs. Wensell's automobile, climbed in and sat down beside her.

Father Sage Says

The reason the earth isn't square is because it has rolled around so many years that the corners are worn off.

A bright, sunny face makes fine weather in the world any day in the week.

Mrs. Donald Macrae

STATE OF MICHIGAN

The Circuit Court for the County of Crawford in Chancery.

Fay Kauffman, Plaintiff, vs. Ben Kauffman, Defendant.

Suit pending in the Circuit Court for the County of Crawford, in Chancery.

On reading and filing the affidavit of Fay Kauffman the plaintiff in this cause, that it cannot be ascertained in what State or Country the defendant resides.

On motion of J. W. Patchin, attorney for plaintiff, it is ordered that said defendant, Ben Kauffman, enter his appearance in this cause on or before December 12th, 1929.

And it is further ordered that this order shall be published once in each week for six successive weeks in the Crawford Avalanche, a newspaper published in said County, or that a copy thereof be personally served on said defendant, said publication to be completed or said service made at least twenty days before the time herein limited for defendant's appearance.

Dated September 12th, 1929.

MERLE F. NELLIST, Circuit Court Commissioner.

J. W. Patchin, Attorney for Plaintiff.

Business Address: 205 People's Savings Bank Bldg. Traverse City, Michigan. 9-12-6

STATE OF MICHIGAN

The Probate Court for the County of Crawford.

At a session of said court, held at the probate office, in the Village of Grayling, in said county, on the 25th day of September, A. D. 1929.

Present: Hon. George Sorenson, Judge of Probate.

In the matter of the estate of Reuben H. Forbes, deceased.

George C. Forbes, a son of said deceased, having filed in said court his petition praying that said court adjudicate and determine who were at the time of his death the legal heirs of said deceased and entitled to inherit the real estate of which said deceased died seized.

It is ordered, that the 25th day of October, A. D. 1929, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is further ordered, that notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Crawford Avalanche, a newspaper printed and circulated in said county.

GEORGE SORENSON, Judge of Probate.

## The Children's Corner

Edited by DOROTHY EDMONDS

### A VERY OLD ART

The big touring car in which the children and Uncle Fred were riding came to a stop and they made their way on foot to the Indian camp where they would meet Sally Owl who made pottery for the reservation. Sally Owl could speak very good English. Uncle Fred had said, so the children could understand all the interesting things she had to tell them.

Sally Owl was delighted to meet the American children and she smiled her brightest Indian smile as she bowed to them. "I tell you how pottery made," said Sally Owl. "Very easy."

First she took some large lumps of hard clay and with a rude stone instrument she hammered and pounded until the lumps of clay had quite disappeared and in their stead was a big pile of soft powder.

"Now I put in water," said Sally Owl, kneading the water into the clay powder with her feet. "Pure clay no good," said Sally Owl when she had finished this. "I put in some powdered shell and rock to keep from cracking or shrinking, and maybe a little sand."

When this was done, the next step was to make that pile of moistened clay dough into the pretty shapes of real Indian bowls and vases. "Indians do this for hundreds years," said Sally Owl, moving her quick fingers gently but firmly over a clay lump and gradually changing it from a round, unlovely thing into a small graceful bowl like those the children often used for their cereal. Other bowls that Sally made were not entirely shaped by her fingers. She used pieces of gourd shells, shallow woven baskets or scooped out pieces of wood to shape them as she wished.

"No done yet," said Sally Owl. "Now I make them pretty. See!"

And before the children's wondering eyes, she took a piece of fabric that looked like an old flour sack, and gently wrapping the fabric around a

bow, she pressed it into the soft clay by means of cords wound round and over it in fancy designs. When she cut the cords after a minute or two, and again unwrapped the fabric, lo! and behold—there was a very lovely pattern clearly imprinted. Sally Owl laughed as she saw the children's surprised faces.

"Is it not easy?" she said. "Some tribes do not make their pottery pretty that way, but in others. Some use long, thin sticks, using their finger nails to make the pictures, some big sharp pointed tools or spoon-like things or funny things called discs but I—I like to make them pretty with my cords and cloth. Tomorrow, when the bowls are dry, I show you how to put the color on. Will come tomorrow?"

"Oh yes," said the children eagerly. And when the sun came out next day the children were again at Sally Owl's.

Sally Owl took a large smooth pebble and picking up one of the bowls she had made, which was now dry, began rubbing it quickly and brightly with the pebble. This she kept up for nearly half an hour, to polish it.

"Now," she said, "we paint it." She had a paint brush made of horse hair and some paint that was a mixture of red clay with juices from berries and herbs added to give different shades. It was not long before Sally Owl had made her bowls very beautiful with soft rich tones of reds and oranges and greens and browns.

The next step was the baking process. Just as her grandmothers had done before her, Sally Owl, suspending her bowls one after the other in a shallow pan by means of a wooden tripod of poles tied together with twine and cords, over a low but very hot bed of coals, began to bake them slowly. "This our way," said she with that same merry twinkle in her

### THE GAME OF TWIRLS

This game requires quick thinking and a running copy of the diagram of the twirl, making it about six inches in diameter, then from it as a pattern make as many as ten. Cardboard that is all by is the best to use. Color the twirls different colors and place on each a different number. These are for scoring. The captain, chosen by your players, throws all the twirls into the air, cutting them through the air towards the other players who are lined up at a given distance away. The one who catches the greatest number, on whose total score is highest wins the game. The game is most fun played out of doors on a windy day.

## Record of Village Council Proceedings

Meeting held on the 14th day of September A. D. 1929. Grayling, Mich.  
Meeting called to order by President C. W. Olson.  
Trustees present: A. L. Roberts, Emil Giegling, E. G. Shaw, A. J. Joseph and W. J. Nadeau. Absent: Thos. Cassidy.  
Minutes of last meeting read and approved.  
To the President and members of the common council of the Village of Grayling:

Your committee on Finance, Claims and Accounts, respectfully recommend that the accompanying bills be allowed as follows:

1. Michigan Public Service Co., Aug. pumphouse	\$262.72
2. Michigan Public Service Co., Aug. traffic signal	10.15
3. Michigan Public Service Co., Aug. pumphouse	1.00
4. Michigan Public Service Co., Aug. street lights	140.00
5. Michigan Public Service Co., Aug. fire alarm	119.00
6. Michigan Public Service Co., Aug. fire alarm	3.00
7. Michigan Public Service Co., Aug. tourist park	7.95
8. Michigan Public Service Co., Aug. Mdee.	.40
9. Tri-County Telephone Co., Inv. 9-3	10.00
10. Standard Oil Company, Inv. 8-25	38.00

Julius Nelson, payroll ending 8-30	112.35
Julius Nelson, payroll ending 9-6	150.70
22. Alfred Hanson, Inv. 9-3	19.32
23. O. P. Schumann, Inv. 9-1	15.60
24. N. E. Michigan Development Bureau	53.49
25. A. J. Joseph, telephone	1.03
26. O. K. with the following exceptions: Nos. 16 and 17 to be referred to the Board of Supervisors.	

Moved by A. L. Roberts and supported by E. G. Shaw that the bills be allowed as read and orders drawn on the Treasurer for the same. Yeas and nays voted. All present voting yeas. Motion carried.

The following ordinance was presented:

STATE OF MICHIGAN  
55TH LEGISLATURE  
SESSION OF 1929  
Introduced by Mr. Culver.  
Bill No. 398. File No. 236.

HOUSE ENROLLED ACT NO. 189  
An act to regulate the use, handling, storage and sale of fuel oil, and the arrangement, design, construction and installation of burners, tanks and other equipment for the burning of fuel oil for heating purposes in cities and villages adopting the provisions of this act. The People of the State of Michigan enact:

Section 1. This act shall be in force and effect in such cities and villages as may, by a majority vote of the legislative body thereof, adopt its provisions. The provisions of this act relative to the storage, handling and sale of fuel oil having a flash point above one hundred thirty degrees Fahrenheit, shall apply only to the use of such fuel oil for oil burners as is specified herein.

Section 2. For the purpose of this act:

(a) "Fuel oil" shall mean any liquid used as fuel and having a flash point above one hundred thirty degrees Fahrenheit.

(b) "Fuel oil burners" shall mean any device, including burners, motors, piping, valves and other equipment designed and arranged for the purpose of burning fuel oil for heating purposes.

(c) "Tank" shall mean any container for such fuel oil, having a capacity of more than twenty-five gallons and directly or indirectly connected with such fuel oil burners.

(d) "Auxiliary tank" shall mean any tank between the storage tank and the burner, delivering oil by gravity or pressure to the fuel oil burner or blower.

(e) "Storage tank" shall mean any tank for the storage of oil, connected through some approved means of suction feed, directly to the fuel oil burner or indirectly connected to the fuel oil burner through approved auxiliary tank.

(f) "Department of buildings and safety engineering" shall mean the department of buildings and safety engineering of such city or such other department as may be designated by the legislative body thereof.

(g) "Bureau of safety engineering" shall mean the bureau of safety engineering of the department of buildings and safety engineering of such city or such other bureau as may be designated by the legislative body thereof.

Section 3. Before any fuel oil burners, tanks and other equipment pertaining thereto shall be installed within such city, the owner of such premises or his agent, shall obtain from the permit department of the department of buildings and safety engineering a permit for the installation of such fuel oil burners and equipment and for the storage and use of fuel oil for the operation thereof. Upon issuing such permit the said department shall issue therewith a temporary tag to be attached to the fill pipe of such equipment, and the bureau of safety engineering shall cause such equipment to be inspected, and if found to conform with this act, a permanent metal tag, properly numbered, shall be affixed by the inspector. The owners or occupants of premises on which fuel oil burners have been installed previous to the date on which this act becomes effective shall obtain from the department of buildings and safety engineering within six months thereafter a permit for the storage and use of fuel oil for the operation thereof. Such permits shall be issued by the department of buildings and safety engineering when such fuel oil burners shall have been inspected by the bureau of safety engineering and found to be reasonably safe for use for the purposes intended.

Section 4. No person or persons, or corporation, shall supply with fuel oil any tanks or containers for such fuel oil unless such fuel oil is supplied in accordance with the provisions of this act.

Section 5. The fill pipe for equipment for the burning of fuel oil shall have a diameter of not less than one-half inch, and shall be constructed of galvanized iron or wrought iron, not less than fourteen gauge, when tested in the open air at all joints shall be welded, brazed or riveted below one hundred thirty degrees Fahrenheit, or below one hundred twenty-five degrees Fahrenheit when tested in a closed cup tester, gives forth inflammable vapor or gas, in determining the flash point of oil, a test as required by the department of buildings and safety engineering.

degrees Fahrenheit, or below one hundred twenty-five degrees Fahrenheit when tested in a closed cup tester, gives forth inflammable vapor or gas, in determining the flash point of oil, a test as required by the department of buildings and safety engineering.

Section 6. The tests and investigations made by the department of buildings and safety engineering shall be made in accordance with the following provisions:

(a) The tests and investigations shall be made in accordance with the following provisions:

(b) The tests and investigations shall be made in accordance with the following provisions:

(c) The tests and investigations shall be made in accordance with the following provisions:

(d) The tests and investigations shall be made in accordance with the following provisions:

(e) The tests and investigations shall be made in accordance with the following provisions:

(f) The tests and investigations shall be made in accordance with the following provisions:

(g) The tests and investigations shall be made in accordance with the following provisions:

(h) The tests and investigations shall be made in accordance with the following provisions:

(i) The tests and investigations shall be made in accordance with the following provisions:

(j) The tests and investigations shall be made in accordance with the following provisions:

(k) The tests and investigations shall be made in accordance with the following provisions:

(l) The tests and investigations shall be made in accordance with the following provisions:

(m) The tests and investigations shall be made in accordance with the following provisions:

(n) The tests and investigations shall be made in accordance with the following provisions:

(o) The tests and investigations shall be made in accordance with the following provisions:

(p) The tests and investigations shall be made in accordance with the following provisions:

(q) The tests and investigations shall be made in accordance with the following provisions:

(r) The tests and investigations shall be made in accordance with the following provisions:

(s) The tests and investigations shall be made in accordance with the following provisions:

(t) The tests and investigations shall be made in accordance with the following provisions:

(u) The tests and investigations shall be made in accordance with the following provisions:

(v) The tests and investigations shall be made in accordance with the following provisions:

(w) The tests and investigations shall be made in accordance with the following provisions:

(x) The tests and investigations shall be made in accordance with the following provisions:

(y) The tests and investigations shall be made in accordance with the following provisions:

(z) The tests and investigations shall be made in accordance with the following provisions:

with a welded or riveted joint or flange. All connections are made. All tanks shall be made tight and tested at five pounds air pressure and with every water without showing leaks. Tanks shall have a rigid and substantial support and shall not be located less than five feet, measured horizontally, from any fire or flame, and shall be placed on an incombustible floor. Gauging devices or any other, the breakage or rearrangement of which will permit the escape of oil shall not be used. Fuel oil shall not be removed from such storage tanks by positive air pressure.

Section 13. The fill pipe for such tank or tanks shall be galvanized iron or steel not less than one and one-half inches in diameter, extending to the outside of any building, and shall be properly capped at all times. All storage tanks for fuel oil shall be provided with a vent pipe not less than three-fourths inch in diameter with a return bend on the open or exposed end, and the outside opening of such vent pipe, or manhole in outside tanks, shall be covered by a non-corrodible wire screen of thirty by thirty mesh; Provided, however, That vent pipe of such storage tank inside of any building shall terminate on the outside of the building, not less than ten feet above the source of supply, and that vent pipes from underground storage tanks outside of any building shall not be less than one and one-fourth inches inside diameter and shall terminate not less than two feet above grade line. The vent pipe from two or more tanks may be connected to one upright provided they be connected at a point at least twelve inches above the source of supply.

Section 14. Except as otherwise permitted in this act, the storage of fuel oil in excess of five hundred fifty gallons shall be outside of any building in underground tanks. Storage of oil in tanks above ground of more than five hundred fifty gallons shall not be permitted without special permit from the board of rules of the department of buildings and safety engineering.

Section 15. Tanks located underground shall have the top of tank at least three feet below the surface of the ground, and below the level of the lowest pipe leading into the building to be supplied. Tanks may be permitted underneath a building if buried at least three feet below the lowest floor or they may be placed twenty-four inches below the lowest floor and covered with fifteen inches of earth and nine inches of brick or concrete.

Section 16. Where it is impractical to bury tanks, the chief inspector of the department of buildings and safety engineering may allow them to be installed inside of a building when completely incased in twelve inches of concrete and six inches of sand.

Section 17. Underground tanks located within ten feet of a basement or pit lower than the top of such tank, shall be completely incased in six inches of concrete of a one, three and five mixture.

Section 18. Measuring devices on tanks beneath buildings and previously described above tanks, shall be of approved wall-gauge type.

Section 19. The metal used in all tanks shall be of a minimum gauge, as standard, depending upon the capacity or size as given in the following table:

Capacity (Gallons)	Thickness of material (gauge)
1 to 500	14 gauge
501 to 1100	12 gauge
1101 to 4000	7 gauge
4001 to 10500	1/2 inch
10501 to 20000	5/16 inch
20001 to 30000	3/8 inch

Section 20. All such tanks shall be welded, brazed or riveted and shall be heavily coated outside with asphaltum, or other rust-resisting material. All tanks shall be tested for leakage and shall be tight at five pounds air pressure. All tanks having a capacity in excess of two hundred seventy-five gallons shall bear the underwriter's label.

Section 21. All oil burners operated by gravity or water pressure, shall be equipped with approved automatic device or devices for the control of the flow of oil in case of failure of the oil to properly ignite. All oil burners of the suction or force feed type shall be equipped with approved anti-siphoning device. Where a pump is used between the storage tank and the auxiliary tank a pressure relief valve shall be installed in the supply line, so arranged as to return any excess oil to the storage tank. Section pipes must extend to within not less than two inches from the bottom of the tank and must be provided with an accessible control valve inside the building between the tanks and the burner. All pipe connections, except for gravity flow, shall be made from the top of the tank.

Section 22. All fuel oil burners used in connection with hot water and steam heating systems shall be equipped with a pressurestat or some approved automatic device to reduce or extinguish the fire in the event of undue pressure within the boiler.

Section 23. The use of acetylene or any other gas possessing a wide range of explosiveness in admixture with air than coal gas, or water gas, shall be prohibited for use in the gas pilot of any fuel oil burner.

Section 24. This act shall not apply in the case of manufacturing plants except for heating buildings or generating steam for power.

Section 25. Any person, firm or corporation who shall violate any of the provisions of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined not to exceed one hundred dollars, or by imprisonment for a period of not to exceed ninety days, or by both such fine and imprisonment, and each day that a violation of this act shall be permitted to exist shall constitute a separate and distinct offense. This act is ordered to take immediate effect.

Moved by A. L. Roberts and supported by A. J. Joseph that the above ordinance be adopted. Yeas and nays voted. All present voting yeas. Motion carried.

Moved by Emil Giegling and supported by A. J. Joseph that the President and Clerk be authorized to renew note with Bank of Grayling in the amount of \$7,000.00, for one year or sooner. Yeas and nays voted. Yeas: A. L. Roberts, Emil Giegling, E. G. Shaw, A. J. Joseph and W. J. Nadeau. Absent: Thos. Cassidy. Motion carried.

Moved and supported that we adjourn. Lurane Sparks, C. W. Olson, Clerk, President.

# New Red Crown Ethyl

## A SENSATIONAL GASOLINE!

### RED CROWN! ETHYL

**A GASOLINE that will make your car start easier, that is more volatile—of added anti-knock value—racy—brilliant—modern—sensational because of the performance it gives!**

### 5 Bottles of Konjola Makes Big Difference

Suffered For Years Without Finding Relief Until She Tried New Medicine

MRS. GERTRUDE SMITH

"My stomach, kidneys and liver were in a very bad condition for the last four years," said Mrs. Gertrude Smith, 2014 Dehoop Street, Grand Rapids, Mich. "I couldn't eat anything but what my stomach would blast from gas. My liver and kidneys were weak and irregular, and I was always tired and drowsy. I had been in this condition so long without finding relief, that I gave up hope."

"But I had given up hope too soon. I found this out after taking five bottles of Konjola. Now, all my health troubles are gone. And this, after four years of fruitless search. I wish I had found Konjola in the first place. I have been feeling better health than I have had for a long time, and I am glad to give Konjola the praise it deserves."

Konjola is sold in Grayling at the Mac & Gidley drug store and by all the best druggists in all towns throughout this entire section.

### CHANGE NAMES OF LAKES AND RIVERS

The name of any lake or stream in Michigan can be changed only upon authority from the Board of Supervisors of the county in which that particular lake or stream is located and the State of Michigan intends to usurp no authority in this, according to the State Committee on changing Geographical Names.

The state of Michigan has many lakes and streams which are duplicated in names, according to the committee. There are innumerable "Mud," "Grass," and "Crooked" lakes and several "Trout," "Silver," and "Crooked" creeks. This has often caused

### Women Suffering Bladder Irritation

If functional Bladder Irritation disturbs your sleep, or causes Burning or Itching Sensation, Backache, Leg Pains, or muscular aches, making you feel tired, depressed, and discouraged, why not try the Cystex 48 Hour Test? Don't give up. Get Cystex today. Put it to the test. See for yourself how quickly it works and what it does. Money back if it doesn't bring quick improvement. Try Cystex today. Only 50. Mac & Gidley, druggists.

A desire to change the name of a lake of stream must initiate with people of the county in which the body of water is situated. By position or request, the board of supervisors may be asked by the people to take some formal action toward changing a name. This petition presented to the supervisors must state the name of the lake or stream whose name it is desired to change; the reasons for desiring the change; and the preferred name.

## News Briefs

THURSDAY, OCTOBER 17, 1929

O. F. Barnes of Lansing was in Grayling Tuesday on business.

Mrs. Hans L. Peterson left Monday for Ann Arbor.

Miss Helen Taitt of Hammond, Ind., is visiting Kathryn Price.

Sam Gust had the misfortune of spraining his left ankle Sunday while playing.

Dr. J. C. Green was in Milwaukee over Sunday to visit his wife for a few days.

Children's Teddy Bear suits, heavy and warm for cold days, specially priced at Redson & Cooley's.

Mrs. Elmer Simpson of Stittsville visited her son Wilber Simpson and family from Tuesday until Sunday.

Smokers who forgot to break their matches or who tossed away lighted cigars and cigarettes caused 506 fires in Michigan last year.

The Grayling schools are closed today and tomorrow while the teachers are attending the Teachers' Annual State Institute held in Flint.

Baked goods of all kinds may be had at the American Legion Auxiliary bake sale at the Schlotz grocery next Saturday afternoon.

Friends of Janice Bailey will be glad to learn she is recovering nicely from an operation for appendicitis in Sparrow Hospital, Lansing, Oct. 10.

Mr. and Mrs. Menno Corwin enjoyed a visit for a couple of days last week from the latter's sister Mrs. C. J. Sarros, husband and little daughter of West Branch.

The regular meeting of the Woman's auxiliary of the American Legion will be held next Tuesday evening, October 22, at the hall. All members urged to be present.

Mrs. Mae Dixon returned home Saturday from a two weeks visit in Pontiac, Detroit, and Windsor. In Detroit she visited her brother B. D. Spencer who is a policeman and in Windsor an uncle.

Mrs. Rose Pond has been in the city several days looking after her property and improving her home. Mrs. Pond is in charge of the dining room for the State Police department in Lansing.

Rev. Greenwood was called to Akron, Mich. Wednesday morning to attend the funeral of one of his young friends, who, during the time of his pastorate there, was an active member of his church.

Dr. and Mrs. C. R. Keyport left Saturday night for Detroit, where they spent Sunday going on to New York City to be in attendance at the annual convention of Michigan Central physicians and surgeons.

Hugh Dicken son of Dr. and Mrs. Hugh Dicken of East Jordan passed away at Petoskey hospital Monday, Oct. 7th. He was 25 years of age and was assistant cashier of the State Bank of East Jordan, and the husband of Miss Julia Supernaw, a former teacher in Grayling high school.

If this is Indian summer then we vote more power to those aborigines. October has been wonderful—cool nights and bright sunny days. Overcoats have been but little in evidence thus far this month among natives, and furnaces have been forgotten except during the evenings. Of course the golfers too have been taking advantage of the fine days. Let's hope this weather continues for several weeks longer.

Parents are urged to keep in mind the fact that toxin-antitoxin is to be given at the school, the first dose of the series on October 30th, the following doses to be given a week apart. The hours are from 8:00 to 12:00 o'clock and in Room 12. Dr. Keyport and his wife will give their time free of charge and parents are urged to make an effort to have their children between 6 months and 16 years, immunized against diphtheria at this time.

Mr. and Mrs. Forrest D. Barber returned the last of the week after a couple of weeks spent at their home in Durand and with their children left again Sunday. Mrs. Barber and children had been here for the summer, spending part of the time visiting her parents, Mr. and Mrs. George Biggs and part of the time resorting at Lake Margrethe.

Mrs. Thomas Cassidy returned home the latter part of the week from a several weeks visit in Grand Rapids and was detained at her home for a few days with illness. However she is able to be out again. Her daughter Mrs. Victor Thelan and little daughter Barbara Ann accompanied her and are remaining for a visit. Joseph Cassidy and sister Mrs. E. J. Hewitt and baby motored over to Grand Rapids after them.

Gerald Edward Hanover, infant son of Mr. and Mrs. Charles Hanover of Bay City, passed away at the home of its parents Tuesday, October 8, after a ten days illness. The family had been in Grayling at the home of Mrs. Hanover's parents, Mr. and Mrs. Clarence Ingalls, when the baby was taken ill. Sunday night they returned to their home in Bay City, the child passing away Tuesday night. Funeral services were held at the home Thursday afternoon and were attended by Mr. and Mrs. Clarence Ingalls Sr., Mrs. Ota Ingalls and baby, Mrs. Dewey Palmer and Mrs. John Deekrow and two children, Mr. and Mrs. John Hanover, Grayling; Clarence Ingalls Jr., Flint.

Watch for the National League fair and chicken supper, Saturday, October 26th.

Mrs. Eabern Hanson left Tuesday for Detroit to be gone the remainder of the week.

D. Sancier, father of Dolph Sancier is quite seriously ill at the home of his son.

Agnes Bissanette returned to Detroit last Saturday night where she will remain indefinitely.

Mr. C. W. Ham of the Muskegon Oil Corporation, Muskegon, was in Grayling Friday on business.

Come and see the fancywork booth at the L. N. L. fair at Oddfellow hall, Oct. 26.

Mr. A. B. Cook Jr., state superintendent of hatcheries was in Grayling today on official business.

There will be a special meeting of the I. O. O. F. next Tuesday night. Members please be present.

The new VICTOR-RADIO is here. Come in for demonstration. Central Drug Store.

Miss Irene McKay had as her guest her sister Miss Christine McKay of Detroit over the week end.

Mr. and Mrs. Peter Rasmussen returned home Tuesday from a visit with their son Einer and family in Saginaw.

Mrs. Elnor Matson and daughter Elizabeth and Miss Margaret Warren drove to Detroit Wednesday to be gone for the remainder of the week.

Percy Jr., three year old son of Mr. and Mrs. Percy Budd of Lovells passed away at the home of his parents in Lovells last Friday after a short illness.

The bake sale given by the Grange last Saturday afternoon was a big success and the ladies feel very grateful. Mrs. Harold Rasmussen won the whip-cream cake that was donated by Mrs. Hugo Schrieber Jr.

The Ladies Aid of Michelson Memorial church gave a harvest supper Monday evening realizing about \$100 from it. The church board had a table reserved for them and Dr. Glass of Saginaw, the District Supt. In the evening the quarterly conference was held.

William D. Green, age 81 years, passed away at the family home Tuesday night after a long illness having been unable to leave his bed for several months. Mr. Green was born in Lyons, Michigan on February 27, 1848. He was a veteran of the Civil war and had made his home in Grayling for the past few years. Surviving the deceased are two sons, W. A. Green and H. A. Green of this city. The funeral is being held this afternoon at 2:00 o'clock from the home.

Theodore Shaw, son of Mr. and Mrs. Horace Shaw of Bay City, who is spending several months in Grayling in an effort to restore his health, is giving medical lectures to the student class of nurses at Mercy Hospital, during their study hour on Wednesday and Saturday afternoons. Mr. Shaw spent some time studying medicine and is very liberal in spending his time in giving these talks at the hospital. While here he is a guest at the home of Mr. and Mrs. William Lenartz on the AuSable.

Mrs. Katherine Laskos returned home Friday morning from Munising, where she was called by the death of her niece, little Marie Charron, age 1 year 7 months, daughter of her sister Mrs. Archie Charron of that city. Mr. Charron passed away last November so Mrs. Charron has had more than her share of trouble. The family were former residents of Grayling. Surviving the little girl besides her mother are one sister, Sister Ellen Therese of the Dominican order of sisters of Grand Rapids, and three brothers. The little girl was ill only a few days with pneumonia.

Ex-Governor Chase S. Osborn of the Soo stopped over night in Grayling Monday and while here met a number of his old friends. He was on his way home after addressing the Pulaski meeting at Detroit where he was the principal speaker. Mr. Osborn was governor of the state in the years 1911 and 1912. He declined to be a candidate to succeed himself but since that time some of his friends have made a number of efforts to nominate him both for governor and for the U. S. senate. Mr. Osborn is one of the most scholarly men Michigan has ever produced. He is a most eloquent and well informed platform orator besides an editor of note.

The Hartwick Memorial Pines Park committee held a meeting here last Monday evening to take up matters relative to the development of the park. Among those of the committee in attendance were Mrs. Edward E. Hartwick and son Edward, Ann Arbor; John W. Blodgett, chairman, and John T. Byrne, Grand Rapids; Mr. and Mrs. Thomas Woodfield, Jackson; Mr. and Mrs. Lowrie and daughter Justine, Detroit; H. A. Bauman of Grayling, and Mr. P. J. Hoffmaster, superintendent of State parks. Plans are under way that will make this one of Michigan's finest State parks. While development seems to have been progressing slowly still those who are most vital-ly interested are satisfied that the plans of the committee will be carried out to their completion at an early date. It seems to have been quite the general opinion of the committee that the construction of the proposed museum would be the first to be started. This is to house apparatus and equipment such as was used in the early pinery days, and is certain to attract a lot of attention and as the years pass by these articles are destined to become still more interesting.

## Ladies' Winter Coats

An especially interesting group of New Coats. Selecting your Winter Coat is smartly and economically solved. We are offering a wide selection of models in the favored styles and materials.

## LAUGHING WHITE-FISH FALLS

Lansing, Oct. 18—Laughing White-fish Falls, dropping gracefully over a series of ledges and down through a gorge that has long been considered one of Michigan's most beautiful spots, has been recommended to the Conservation Commission as a state park site.

The Falls are in Alger county, 20 miles west of Munising, and three miles north of Dorsey on Highway M-28.

"There are in the northern peninsula a number of waterfalls, and I have seen two or three where the falls were actually as beautiful and possibly as spectacular as these, but taking into consideration the very deep gorge, the excellent hardwood virgin timber through which the river flows and the topography in general surrounding the falls, I know of no place where there is more scenery," P. J. Hoffmaster, superintendent of state parks told the commission. Mr. Hoffmaster had been asked by the Commission some time ago to investigate the falls and gorge as a possible park site.

"I am not unmindful of the fact that effort is being made to acquire a large area for park purposes in this same county in the 'Pictured Rocks and Beaver Lake' regions," Mr. Hoffmaster said. "Notwithstanding this, however, I believe we would be thoroughly and heartily justified in reserving these falls, a part of the river and the virgin timber in their natural state on a 160 acre area containing the falls."

Although the commission agreed with Hoffmaster's recommendation that 160 acres including the falls be adopted as a state park site, there is no money available in the Parks Division for the purpose. It is probable, however, that an effort will be made to acquire the property before the timber is cut.

Laughing Whitefish River is a well known trout stream. The crystal water flows through sandstone and over a series of ledges that cause a drop of about 75 feet within 20 rods. One side of the gorge is about 100 feet deep for a long distance and is covered with virgin timber.

The nearest state park is now at Marquette.

## AUTO DRIVERS BEWARE OF WET LEAVES

Fall, the season of beautiful foliage enlivening the countryside with picturesque scenery hued in all the shades of yellows, browns, reds and tans, brings with it a message that should spell caution to the motoring public. It is nature's signal of the approaching wet period and precedes the dropping of the leaves which are pushed from the stems as the succeeding buds set preparatory to their reign in the spring.

As these leaves fall and cover the roads they make for more difficult driving for all but those who are prepared by a proper knowledge of correct use of their car-brakes under any condition.

Hudson Motor Car Company engineers, who have established the precedent of carrying on their experimental tests under actual driving conditions, have made an extensive series of tests to determine correct brake operation when driving over wet fallen leaves. The instructions that they have issued on correct brake operation during the Fall while the leaves are on the ground are of interest to all drivers.

"This fall when approaching a stretch of highway covered with fallen leaves, the brakes should be applied gently to prevent skidding. Leave the clutch engaged so that the motor will continue to turn the rear wheels sufficiently to maintain the forward motion of the car. As the brakes begin to slow the car down, increase the pressure gradually and release the clutch just before coming to a full stop. A leaf-covered stretch of highway will often present a situation to even the most careful driver that requires a quick stop. The best practice is to leave the clutch engaged, apply the brakes with increasing pressure at the same time accelerate the speed of the motor with the hand throttle, as the car slows down decelerate, increase the brake pressure and release the clutch just before bringing the car to a full stop.

"If these instructions are followed the chance of side slipping or skidding will be reduced to a minimum. The action of leaving the clutch engaged keeps the car moving forward enough to prevent the leaves from piling up in front of the wheels, which happens when the wheels are locked."

## THE WORLD'S LARGEST PLANE

By Erwin Greer  
(President, Great College of Aviation, Chicago, Ill.)

She took the air as easily and gracefully as a bird. There was not the slightest hitch. She gained height easily. Three times the take-off and alighting were repeated, and each time it was noticeable how easily the hydroplane responded to the controls.

Dr. Dornier was vindicated. His life's greatest achievement, the Do-X, the world's largest plane, flew. This giant aircraft, regarded as another step toward transatlantic mail and passenger service has long and impatiently been waited for, for both its spectacular size and for the performance expected of it. In many urnals we encounter almost awe-struck recitals of statistics—180 feet long, 160 feet wingspread, 12 motors, accommodations for 100 passengers and a crew of twelve.

Although some of the giant craft's details are already known, the first impression the visitor gets when

entering its vast hangar is an amazement at its overwhelming size. But after climbing for an hour through the ship's interior and through the labyrinth of gangways, docks, corridors, motor gondolas, and wings, astonishment grows, and with it admiration.

The ship's hull does not differ greatly from that of an ordinary set vessel with its deep keel and "eyes" for anchors, and it appears plausible that the Do-X will easily cut the waves of what is called a sea of Force 3 or 4—or near-gale intensity.

Entering the ship through a corridor which cuts the middle or main deck, exclusively reserved for passengers, into two parts of unequal size, one looks in vain for cabins such as are found on Zeppelins. While partitions already are visible where the frames of sections have been fixed, they are as yet uncovered, the ceiling is missing and numerous electric wires, pipes and steel cables are visible.

The four huge tanks with a capacity of 3,000 liters (nearly 3,000 gallons of gasoline), and two smaller ones of 2,000 liters, bring the total amount of fuel to 16,000 liters, sufficient to carry 120 passengers and their baggage a distance of 660 miles.

## HEALTH, GOOD AND BAD

The capacity of the human body to endure abuse and ill treatment is astounding. It far surpasses in this respect a metal machine. Automobile engines, run without proper lubrication are soon reduced to uselessness. The human body, tortured though it may be by the indignities heaped upon it by such as our marathons, flagpole sitters, and solo airplane flyers, returns to apparent normality with the help of a day or two of rest.

Fortunate is the ability of the body to meet and overcome misfortune. It may be, it is a quality that has its advantages. A very prevalent tendency among people today, which exists solely because of the wonderful recuperative powers of the body, is to "go the limit"—to push the accelerator of life down to the floor and to keep it there.

We see a school youngster playing a strenuous sport for long periods—and marvel at his endurance. We see a young girl working long days, dancing nights, and a few hours in between, and marvel again. We see the macho of a four year old, care for her brood and at the same time indulges in church and club work to the limit of her free hours, and wonder that she can keep going.

What we so often do not see, beneath the surface appearance of good health and high vitality, is a weakened physique that may be fast heading toward breakdown. The ability of the body to cover up the traces of too strenuous living is in reality just another style of camouflage, that art which was developed to such a fine point in the world war. A painted to the trick of the shipbuilder who by means of painted lines, gave a ship the appearance of traveling at a different speed or in a different direction from that it actually was pursuing is found in nature's trick of concealing the direction which health is taking. Appearance may indicate perfect health. Actually, conditions may be just the reverse.

Regular and reasonable habits of sleeping, eating and working are advocated by the Michigan Tuberculosis Association as the first and most important preventive against tuberculosis, the disease that typifies the fate of many who live as if health could never be lost. Possibly an Edison can go counter to the laws of health, sleeping but four hours a night and laboring without rest much of the remaining time, but Edison's equals in this respect are probably as few as his peers in inventive ability. For the most of us, the safest course to pursue is one that protects rather than weakens, builds up rather than tears down the bodily structure. Sane living always pays.

## Sports Ensemble

Another optimist is the Grayling man who finds comfort in the fact that as long as it is raining he is in no danger of getting a sunstroke.

## NEWS REVIEW OF CURRENT EVENTS

### MacDonald Visit Ends and Naval Conference Is Called by England

By EDWARD W. PICKARD

FIRST fruit of the momentous conversations between President Hoover and Prime Minister Ramsay MacDonald in the Virginia fishing camp and the White House was the invitation issued by Great Britain to the United States, France, Italy and Japan to participate in a naval conference in London next January. The proposal of the British government is in effect to reopen, revise and extend the naval limitation agreements reached at the Washington conference of 1921-22, with a view to gradual disarmament in accord with the spirit of the Kellogg pact in which all countries have renounced war as an instrument of national policy.

In order to give assurance that there will be no differences between Great Britain and the United States over cruiser tonnage to wreck this conference as occurred at the Geneva conference of 1927, the London government-inferia Japan, France and Italy that the two Anglo-Saxon nations have virtually reached an agreement based on parity of the two navies in all classes of ships.

There is no doubt that the invitations will be accepted, though there will be some opposition to holding the conference in London. America's response was announced Thursday. It was believed, would make three reservations, asking that the bulk of the conference be disassociated with the Kellogg pact; that the proposals for abolishment of the submarine be dropped by England and America before the meeting opens, and that France have the right to call for a new motto on cruisers, destroyers and submarines. It was understood that Italy would adopt practically the same attitude as France; and Japan was expected to accept the limitation without reservations. Each British dominion also was invited to send representatives to the conference.

When Mr. MacDonald's Washington visit officially came to an end he and Mr. Hoover pursued a joint statement to the effect that in their conversations they had reached an understanding that the United States and Great Britain would co-operate to preserve the peace of the world, and that settlement of all disagreements between the two countries in the future should be sought on the assumption that war between them is unthinkable. Sincere acceptance of the Paris peace pact is reaffirmed, and confidence expressed in the success of the naval conference. One significant paragraph of the statement reads:

"The part of each of our governments in the promotion of world peace will be different, as ours will never consent to become entangled in European diplomacy and the other is required to pursue a policy of active cooperation with its European neighbors, but each of our governments will reveal its thoughts and influence towards securing and maintaining the peace of the world."

This is designed to quiet the apprehension, felt especially by the French, that the MacDonald visit would result in an actual alliance between America and Great Britain intended to force upon the rest of the world their interpretation of disarmament and peace. At every opportunity Mr. Hoover and Mr. MacDonald disclaimed any such intention, and in his remarkable address before the senate the prime minister emphatically said: "We are not out for any exclusive alliance. You would reject it. So would I. It is not for the benefit of either of us."

The President and the prime minister discussed, in a general way other topics besides the naval conference. These included tariffs, the Anglo-American trade agreement, the sea and the British naval bases off the coast of Atlantic coast. It was agreed the last named matter should be the subject of further consideration after Mr. MacDonald has returned to London.

Socially as well as politically, Mr. MacDonald's visit was a great success. He and his daughter, Isabel, were lavishly entertained, there were state dinners at the White House, the British embassy, and at the home of Secretary Stimson, and the prime minister was given the honorary degree of Doctor of Laws by the George Washington university. After the formal farewells in the Capital the British party left for Philadelphia and New York, secure in the belief that Mr. MacDonald's unprecedented adventure had accomplished extraordinary things for the two nations and for the world at large.

IRWIN B. LAUGHLIN of Pittsburgh, one of the "career" diplomats, has been appointed by the President as ambassador to Spain to succeed Ogden H. Hammond, resigned. Mr. Laughlin's last assignment was as minister to Greece, where he served from 1924 to 1928. Prior to his appointment Mr. Laughlin had been stationed in various diplomatic capacities at many of the principal capitals of the world. He began his career as private secretary to the minister to Japan.

ONCE again the Democratic senators and those radicals who persist in calling the United States scored on the administration senators in the tariff battle. This time by a vote of 44 to 41 the senate rejected finance committee amendments broadening the rights of manufacturers and wholesalers to intervene in customs disputes before the treasury and the courts. Later the senate rejected an amendment offered by King of Utah which would have granted independence to the Philippines, and debated another proposal to levy tariffs on imports from the Philippines and return the revenue thus derived to the islands until independence is granted. These proposals really were made for the benefit of the American beet sugar

growers and domestic producers of vegetable oils.

The strength of the Democratic radical combine led to forecasts that there would be a deadlock over the tariff bill in conference and that the measure would fall of enactment in the special session. There were those who said this result would not be entirely displeasing to the President and that the administration would not favor the revival of the bill in the regular session of congress.

ALBERT R. FALL, former secretary of the interior, appeared in Washington for his trial on bribery charges connected with the oil scandal and refused to ask a continuance on account of his exceedingly poor health. But before the taking of testimony began he collapsed and a recess was ordered. The court designated Dr. Sterling Rudin to examine him, but Fall refused to receive the specialist, explaining his action was on purely personal grounds and that Doctor Rudin was the only physician in the country whom he would not permit to examine him.

THREE more loans were authorized by the federal farm board. The Florida Citrus exchange is to get a facilities loan of \$2,800,000; and the Tennessee Cotton Growers' association and the South-Carolina Cotton Growers' Co-operative association are to get supplementary loans of \$250,000 and \$500,000 respectively. The advance to the Florida Citrus exchange will be secured by first mortgage on packing plants of local units.

REPORTS from India say that Kibul, the capital of Afghanistan, has been captured by the forces of Nadir Khan and that Habibullah Khan, otherwise Bacha Sakao, had fled by airplane. Evidently the story of the usurper king's assassination two weeks ago was at least premature. The troops of Nadir's brother are said to have scattered Habibullah's army and to have entered the capital, the inhabitants taking refuge in the hills.

SENATOR MORRIS SHEPPARD of Texas has put forward a proposal to amend the Volstead act so as to make the purchase of liquor a crime, as well as the sale of it. But the idea is meeting with strenuous objections not only from the wets but also from many of the dry leaders. Some thought it would nullify the whole scheme of prohibition, and others, like Senator Sirois, chairman of the judiciary committee, held that it might completely break down prohibition enforcement. Mr. Norris said the plan, if adopted would prevent 95 per cent of the prosecutions in prohibition cases, for fully that number the testimony of buyers must be relied on for conviction. Senator Hiram of Missouri, a wet, said: "The matter of 'purchase' purposely was omitted from the Eighteenth amendment, and if it is to be brought up now the proper method would be by the submission of another constitutional amendment."

PREPARATIONS were completed for the investigation of lobbies operating in Washington by the senate. The subcommittee of the judiciary committee, which is to conduct the hearings, was named, as follows: C. W. Clegg, chairman; Borah of Idaho, Robinson of Arkansas, Blaine of Wisconsin and Walsh of Montana. Thus the inquiry is dominated by radicals, drys and pacifists and it is expected to go especially hard for the eastern high tariff interests, the big navy and other preparedness organizations and the wet associations. The tariff lobby was scheduled for first attention. Probably the hearings will last through the winter.

AMERICAN FEDERATION OF LABOR delegates opened their annual convention at Toronto with President William Green in the chair. The most interesting event of the week was the start of an attempt to bring the Brotherhood of Railway Trainmen back into the federation. Albert Whittey, chief of the brotherhood, was loudly cheered when he told the convention he saw no reason for the brotherhood to remain separated from the rest of the labor movement and that he intended to ask the leaders of the order immediately to vote on a proposal to affiliate.

For four days New York's supply of fresh fruits and vegetables was seriously curtailed by a strike of the teamsters and chauffeurs' union, and freight yards and piers were jammed with rotting produce worth millions of dollars. The strike was called off when the Market Truckmen's association agreed to accept one of two propositions made by the union. The men were to get either more wages or shorter hours.

The workers' week has gone into effect in Soviet Russia and is said to be creating distressing confusion in industry.

DEUDONNE COSTE and Maurice Bellonte, French aviators who started eastward from Paris for an endurance flight and were thought to have been lost in the wilds of Siberia, turned up in Manchuria near the Mongolian border, 4,846 miles from their starting point, breaking the world's straight line distance record. It took them about a week of foot travel to reach a place where they could set in communication with the outside world.

Colonel Lindbergh, with Mrs. Lindbergh and two archeologists, spent several days flying over the jungles of Yucatan, Guatemala and British Honduras. Their purpose was to explore unknown regions in the search for ancient Mayan cities, and they were successful in discovering several extensive ruins not heretofore known. The Lindberghs then flew from Belize to Miami, Fla.

FEDERAL inquiry into liquor and vice conditions in northern Indiana has resulted in hundreds of indictments and arrests. Among the accused are the Mayor of East Chicago and many police officers of towns in the northwest corner of the state. The charges include violations of the

liquor, white slave, narcotic and auto theft laws.

COL. THEODORE MOOREVELT arrived in San Juan, Porto Rico, and was immediately inaugurated governor of the island. The ceremonies took place in the new capitol building, and the governor was then escorted by a parade to La Fortaleza, the ancient building that will be his official residence.

(© 1935 Western Newspaper Union.)

### ANNUAL E.M.T. MEETING PREPARES FOR BIG CROWD

Acceptances to invitations to the annual joint banquet of the North-Eastern Michigan Development bureau and the East Michigan Tourist association, scheduled at the Wenonah Hotel, Bay City on the evening of October 24, indicate probably the largest gathering in the history of the association. Despite the fact that there has been no advance notice of the speakers, interest in the meeting is keener than ever before. This interest has been cumulative for the last half-dozen years and each year results in a larger attendance than the preceding year at the joint business meetings and the banquet.

It is expected that Governor Fred W. Green will be one of the speakers at the banquet. A number of other prominent persons are on the program. Three big-time vaudeville acts from the Gus Sun Booking Exchange, Detroit, have been engaged for the banquet. Emory Parnell musical entertainer, who has appeared on Chautauqua programs, will also be present at the banquet in impersonations, stories and featuring his own original and unique one-man band. Mr. Parnell has in the past decade appeared in every state in the union, every province of Canada and in Australia, New Zealand and Alaska.

The business meeting and election of officers of the Development Bureau will take place in the morning at 10:00 o'clock. The business meeting and election of officers of the East Michigan Tourist association will take place in the afternoon at 1:30 o'clock. At 8:00 o'clock there will be a forum meeting open to members of both organizations. Among those scheduled to address the forum are Grover C. Dillman, State Highway Commissioner; Arthur W. Stace, Ann Arbor; P. J. Hoffmaster, Superintendent of State Parks; E. A. Myer, Director of Publicity, Michigan Conservation Commission; a representative of the State Health Department and a number of others.

One of the expected features will be the large attendance on the part of members of Boards of Supervisors in the 31 counties making up the East Michigan Tourist association territory. Reports which are being made to the log office prestage some one hundred per cent representation by some Boards.

## LOVELL'S NEWS

Mr. and Mrs. Joseph Doby have returned home after spending three weeks in Canada.

Mr. and Mrs. Roy Small of Mio spent the week end with their daughter, Mrs. Francis Nephew.

J. W. Anderson and son Bruce of Detroit were in Lovells over the week end.

Mrs. Clarence Stillwagon and Mrs. Cora Hannan of Lewistown were callers in Lovells Monday.

Junior, the two year old son of Mr. and Mrs. Percy Budd died Saturday night after a few hours illness. They have the sympathy of their friends. It is the second child they have lost within six months.

Mr. and Mrs. Fred Mundt have returned to their home in Saginaw after spending the summer with Mrs. Joseph Doby.

Reginald Squires of Ohio is staying at his cottage for a month.

Iris Nephew had her tonsils removed at Mercy Hospital last Monday.

Ray Doby was a caller at Mio Sunday.

Mrs. George Clise of Grayling was in Lovells for a few days.

Mr. S. Johnson of Maple Forest was a caller in Lovells Monday.

## Inside Information

Use two pens when you wash spinach. Trim the leaves from the stalks first; much of the grit that clings to spinach is at the lower ends of the stalks. Lift the spinach from the first pan to the second, letting the sand settle; change the water each time you transfer the spinach; wash in five or six waters if necessary. If the spinach is unusually free from sand or grit, it may be put in the colander and washed under running water, but the first way gives more certain results. Enough water will cling to the leaves after the washing to start cooking the spinach. Cover it closely at first so it will steam, then remove the cover and cook as short a time as possible—ten or fifteen minutes. As soon as it is tender, drain it, chop it and season with salt and melted butter or thick cream. Serve hot.

Have spareribs and sauerkraut for a change. Select 2 well-padded ribs. Wash them and cut them into pieces suitable for serving. Cook with the sauerkraut in sufficient water to cover for about an hour. When tender drain off the liquid and serve.

To make mint sauce for roast lamb, mix ¼ cup of water, ¼ cup of vinegar, 1½ tablespoons sugar, and ¼ teaspoon salt and bring to the boiling point. Remove from the fire, add 8 tablespoons chopped mint leaves, and allow the sauce to stand three or four hours before serving.

A loose-leaf household account book

Tel. 79 Grayling, Mich.

## CONSIDER THESE THREE C'S

A complete undertaking and funeral directing service; we furnish everything. A competent staff of experienced morticians. A comforting, sympathetic service that overlooks no important detail and that relieves the family of all care.

with which to start the new year can be bought from the Government Printing Office for fifty cents. This book was designed by the Bureau of Home Economics for use in classifying home expenditures. Send money, not stamps, to the Superintendent of Documents, Washington, D. C.

Roast stuffed breast of lamb is an appetizing and economical meat. Have the butcher crack the bones so that the meat may be carved between the ribs, and also make a slit under the ribs close to the rib bones for a pocket to hold the stuffing. Fill this cavity with any savory stuffing you prefer. Foremost, or ground meat, makes a good stuffing, or bread crumbs with poultry seasoning, or with spinach, or oress. Sew up the cavity and bake the roast slowly in an uncovered pan without water.

CARD OF THANKS  
We wish to extend our sincere thanks to our neighbors and friends for the many acts of kindness, and the flowers sent during our late bereavement, the death of our baby.

Mr. and Mrs. Carl W. Larson and family.

## Shutting Off the Alarm Clock
